General Comment:

This is an Abandoned Location Inspection, Bond Release Related, for Well API# 077-08633. APD was first Approved 11/13/1991; Permit Abandoned 3/2/1993. Though Well was not Drilled, Location was constructed. Site Failed a Final Reclamation Inspection in 1999. As the Site has been disturbed and reoccupied as part of footprint of the North Vega Water Impoundment Location#425510 which houses Centralized EP Waste Management Facility #441238, an Active Facility, this would be a Well Release on an Active Location. Operator of Active Location (North Vega Water Impoundment) would need to take Responsibility / Ownership of Location #391285 (Buzzard Creek Unit) for AL Well API#077-08633 to be released for Final Reclamation. Refer to Reclamation Section and Photo log attached.

Comment:

Site has been disturbed and reoccupied as part of footprint of the North Vega Water Impoundment Location#425510 which houses Centralized EP Waste Management Facility #441238, an Active Facility. Aerial images attached show that though the Well was not drilled, the Location was built, and that the area was included in the 50.6 acres of disturbance for construction of the Water Impoundment Location. Plans from the Facility show the subject location identified as a 5.1 acre Spoil location (image attached). Operator will need to contact Operator of Water Impoundment facility.

Corrective Action: **Provide Documentation that Laramie Energy, Operator#10433, takes responsibility / ownership of Location#391285.**
