Reclamation Specialist	Approval of the form 4 acknowledges that the Oil and Gas Conservation Commission has received the Notice. It is not an acknowledgement that the reclamation has been passed. A field inspection will be conducted to evaluate compliance with reclamation standards when scheduling allows. A more detailed "description of final reclamation procedures" as required in Reclamation Section, when checking the Final Reclamation Complete check box, illustrating that Site has reached the 80% of reference area requirement, would expedite the Inspection process as well as, any relevant directions, surface owner & access information.	05/10/2018
