RE: Permit to drill
Huey Ranch #45
Morgan Co. Colorado

Gentlemen:

On October 1, 1973 OGCC form 2 on the subject well was approved by your office and assigned permit #73-800. The actual drilling of this well has been delayed and is now our intent to commence drilling in the next few weeks.

Since the 120-day period for commencement of drilling has expired, it is requested that an extension of an additional 120 days be granted under the already approved permit.

Your early approval of this extension will be appreciated.

Very truly yours,

J. Roy White
Manager
Production & Engineering

JRW/cg

OK DVR

10/11/74 - Per phone call, Okmar will decide in a week or so if they will drill this well, then send us a notice on form 4.
