Dear Mr. Joynson:'

Returned herewith unapproved, in duplicate, is the OGCC Form-4 completed by you to plug the Roh-Government well No. 1, C SE SE, Section 22, Township 2 North, Range 56 West of the 6th P.M., North Gary field, Morgan County, Colorado.

The reason the forms are not being acted upon by this office is because of a cooperative arrangement this office and U. S. Geological Survey maintains, and according to a letter written to your company dated February 28, 1961, by Mr. G. G. Frazier, District Engineer of the U. S. G. S., there are discrepancies that must be clarified with the Geological Survey.

Very truly yours,
