1003 f. Weeds Noxious weeds? _____

Comment

Appears the Operator has performed interim reclamation activities to reduce disturbance areas only needed for production operations at the battery location, with the evidence of drilling rows and straw crimped mulch. Germination was apparent throughout the interim areas. Appears portions of the western well location are not needed for production operations. Operator shall comply with Rule 1003 standards if these areas are no longer needed. Refer to the attached inspection photo for more detail.
