**Photo 5:** Photo taken from the access road, east of the location, facing west. Photo shows section of the access road NOT included in the variance request appears to have had reclamation work conducted.

**Photo 6:** Photo taken from the access road, east of the location, facing west. Photo shows the north/south section of the access road that is included in the variance request.

**Photo 7:** Photo taken from the southern end, of the north/south traveling section of the access road included in the variance request. Photo shows section of access road where degradation is evident. The north/south traveling section of the access road is on a slope and stormwater and vehicular appears to have deepened vehicle ruts in areas as. Stormwater also appears to have “cut”, or washed out, areas of the access road creating gully formations. 6 foot measuring stick for reference.

**Photo 8:** Continued from photo 7.

**Photo 9:** 2015 aerial imagery. Photo shows the access road outlined in the variance request. The section of access road in red outlines areas where degradation is evident.
