

- 1) The LAC 11Y is a directionally drilled well with the SHL location in Sec. 23 and the BHL in Sec. 24. A ½ mile and ¼ mile buffer is drawn from each the SHL and BHL.
- 2) Well status symbols are at the BHLs.
- 3) Chevron is proposing to inject into the Navajo formation. None of the wells within a ½-mile of LAC 11Y SHL and BHL produce from the Navajo.
- 4) Well information for wells within ¼-mile of the LAC 11Y SHL and BHL is documented on the Form 31 Area of Review attachment

- ½ mile from LAC 11Y SHL
- - - ¼ mile from LAC 11Y SHL
- ½ mile from LAC 11Y BHL
- - - ¼ mile from LAC 11Y BHL
