**General Comment:**

This is an environmental inspection. Any corrective actions from previous inspections that have not been addressed are still applicable.

Comply with 1004 Rules. Reclaim disturbed areas with inadequate crop growth.

Previous COGCC Inspection #689900216 gave operator corrective action date of 11/30/2017. Current inspection found location in the same condition as previous inspections. No crop growth was observed at well pad or access road. No evidence was observed to indicate that operator has taken steps to remediate soil impacts at historic well pad location. Previous Corrective Action dates remain in effect for enforcement purposes.
