Field Inspector Assigned: Jason E. Gomez

Complaint Received:

Date: 5-30-2018

Complaint Contacted:

Date: 5-30-2018 Time 1440 Hrs

Location #: 319094

Inspection Document #: 688400187

Nature of complaint: Noise

Field Inspector Actions:

On 5-30-2018, I was contacted by COGCC staff in reference to some complaints received by the COGCC in reference to noise, the complaint stated the noise was coming from the Erie area originating from the Extraction, Coyote location.

On 5-30-2018, I attempted to contact the complaints in reference to the noise she was experiencing which she perceived as coming from the Coyote fracking location. I performed a complete site inspection of the Coyote location. I reviewed location records, which did not show any abnormal fracking conditions at the time of the complaints. I reviewed third party sound records at the times of the complaint and at no time did the drilling operation exceed COGCC rules according to the sound study information reviewed. I attached the third party sound results to inspection document.

No violation of COGCC rules were observed at the time of the inspection of the frack operation nor in the surrounding neighborhood.

All information reviewed and site inspection information were submitted to the complaint specialist for further review.
