GomezComplaint Received:Date: 5-21-2018Complaint Contacted:Date: 5-21-2018 Time 0900 HrsLocation #: 449884Inspection Document #: 6884001Nature of complaint: Noise/odorsField Inspector Actions:

On 5-21-2018, I was contacted by COGCC staff in reference to some complaints received by the COGCC in reference to noise, the complaint stated the noise was possibly coming from the Anadarko Newby location NE of the complaints residence.

On 5-21-2018, I contacted the complaint who indicated she was experiencing a constant noise coming from the Newby location which was located NE of her home. I reviewed location records, which did not show any abnormal fracking conditions at the time of the complaints. Anadarko indicated they would submit third party sounds records at the times of the complaints when sound study results became available. I reviewed sound study record which did not show any exceedance of COGCC sound rules. During my inspection I observed exhaust from the fracking operations, the only odors observed at the time of the inspection came from the exhaust fumes. I did not detect any odors off location at the time of the inspection.

No violation of COGCC rules were observed at the time of the inspection of the frack operation nor in the surrounding neighborhood.

All information reviewed and site inspection information were submitted to the complaint specialist for further review.
