Comment:

Corrective Action:	This location is not in compliance with Rule 1004. Well was plugged 4/15/2013. Remediation project is ongoing. The cattle guard is need of vegetation removal. Weedy, annual vegetation was observed which includes but not limited to cheatgrass, field bindweed, and kochia throughout the location that is lacking uniform germination of perennial vegetation. A List B CO Noxious weed, scotch thistle, was observed at the location. Fence around gathering system appears inadequate to keep cattle from entering. Please refer to the attached inspection photos and the previous inspection document 673504455 for more detail.	Date 06/25/2018
	Perform reclamation in accordance to COGCC 1004 reclamation rules and requirements. Reseed disturbance areas. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Ensure erosion controls are implemented to stabilize the seeded soil. Clean out cattle guard. Manage noxious weeds by 6/25/2018 due to that flowers will develop shortly. Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards. Final reclamation activities shall be complete no later than 9/17/2018 or sooner depending on favorable environmental conditions.
