Comment:

This location is not in compliance with Rule 1004 standards. Access road is evident and appears to be compacted with undesirable vegetation, including List B Colorado noxious weed species (Canada and Musk Thistle).

Even the Operator's own vegetation survey from 11/2/17 (Doc.# 401492748), noted areas of the access road remain compacted and unvegetated; therefore, the Operator should not have submitted a Final Reclamation complete notice based on this information.

Corrective Action:

Comply with Rule 1004 standards for the access road, including noxious weed removal and control.
