Paul,

The Sundry Notice referenced above has been returned to draft for correction. The following corrections will need to be made before the Sundry may be approved:

- 1) The location of the well is not in the GWA Rule 318A.f area so it falls under Rule 609. Please correct the Rule that the Sundry submitted for.
- 2) Based on a review of the information available on the COGCC website it appears that there are two water wells within 1/2 mile that will need to be addressed (Receipt numbers 9057947 and 9057497).

Please make sure and request the correct number of exceptions once the two wells have been addressed. Once the corrections have been made please resubmit the Sundry.

Thanks,

Arthur

Arthur,

Corrected and additional attachment added – I had forgotten there were 2.

Paul,

The Sundry was returned to draft so you may correct the number of exceptions to Rule 609. Since samples will not be submitted you will need to request four exceptions to Rule 609 instead of two. One exception is required for every sample that is not going to be collected.

Thanks,

Arthur

Paul,

The Sundry was returned to draft so you may correct the number of exceptions to Rule 609. Since samples will not be submitted you will need to request four exceptions to Rule 609 instead of two. One exception is required for every sample that is not going to be collected. This is the second request to fix this issue, please do not resubmit the form until it has been correct.

Thanks,

Arthur
