

## San Juan Basin Operators Checklist

Please submit this checklist with all Application for Permits-to-Drill (APD) subject to Order Nos. 112-156 and 112-157.

Well Name: Ross 2

Location: NE¼, Section 13, T32N, R6W NMPM

1. \* Is the proposed well within 1½ miles of the outcrop contact between the Fruitland and Pictured Cliffs Formations?

\_\_\_\_\_ Yes   X   No

If yes: A Commission Hearing is required for APD approval.

2. \* Is the proposed well within 2 miles of the outcrop contact between the Fruitland and Pictured Cliffs Formations?

\_\_\_\_\_ Yes   X   No

If yes: An onsite inspection is required prior to APD approval.

3. Is the proposed well located within an approved subdivision?

\_\_\_\_\_ Yes   X   No

If yes: An onsite inspection is required prior to APD approval.

4. Have the land owner and operator entered into a surface use agreement?

  X   Yes \_\_\_\_\_ No

If no: An onsite inspection is required prior to APD approval.

5. \* Does a conventional well exist within ¼ mile of proposed well?

\_\_\_ Yes   X   No

If yes: Two closest water wells within ½ mile radius shall be sampled (water wells on opposite sides of a conventional well if possible; otherwise the two closest wells).

If no: The two closest water wells within ¼ mile radius of the proposed well shall be sampled (water wells on opposite sides of the proposed well if possible; otherwise the two closest wells).

If two water wells do not exist within ¼ mile radius sample the closest single well within a ¼ mile or a ½ mile.

If no water well exists within ¼ mile or access is denied, sample water well within ½ mile.

If no water well meets the above requirements no sampling is required.

6. \* Do any P&A'd wells exist within ¼ mile radius of the proposed well?

\_\_\_\_\_ Yes   X   No

If yes: Operator must assess risk of P&A'd wells and report the risk assessment to the Director.

7. Has an emergency preparedness plan been filed with the County?

La Plata County \_\_\_\_\_ Yes \_\_\_\_\_ No

Archuleta County   X   Yes \_\_\_\_\_ No

8. Has the operator notified the Division of Wildlife of the proposed drilling and informed the COGCC Director of the notification date?   X   Yes   See

Note \_\_\_\_\_ Date notified:

Note: This is covered by the BP San Juan Basin Colorado Wildlife Mitigation Plan

9. Operators are required to obtain a bottom hole pressure utilizing a bottom hole gauge after a minimum forty-eight (48) hour shut-in period following completion and prior to sales.
