Operator  
Comment:

LOGO's Operating, LLC and predecessors have reduced the pad size down to the current operating area. The surface owner has begun utilizing the area outside of our operating area for their own use. We do not have ownership of the materials stored on the surface owner's property and do not have authority to remove the debris.

LOGOS Operating, LLC discussed with the land owner on June 25, 2018, the concerns regarding the land owner's equipment that is staged next to our current operating area (as defined by our rig anchor pattern). The

landowner has agreed to relocate his personal equipment to another area of his property. He stated that due to hay season he will have this completed by August 15, 2018. We offered to assist in the relocation but he prefers to move the equipment on his own.
