comment:	There are multiple points on tank battery location that have been washed out due to a recent storm. See attached photos. I noticed 1 call paperwork posted on fence to battery indicating a 1 call had already been made by operator. I call operator and talked to Mark Grage (970-815-1469) and he informed me that they had been waiting on clearance from the 1 call and that construction was scheduled to begin this afternoon 7/1/2018. No corrective action required repairs are already in motion.
