**Subject:** State Reportable Release

Good Afternoon,

We had a State reportable release yesterday evening due to greater than one barrel of water based drilling fluid being released outside of containment at the location noted below. . The release occurred due to trapped fluid encountered inside cementing equipment lines while rigging down at the site . Additional information will be provided in a forthcoming COGCC Initial Form 19 Release Report. Please let me know if you have any questions.

Well: Ale Partnership Federal W29-9JI  
Legal Description: NESE Sec 29 T2N R66W  
API: 0512319856

Thanks,

Taylor Rowley
