Jeff,

I have reviewed the referenced Form 2A Oil & Gas Location Assessment and have the following comments.

1) In the Cultural Setback Distance section Extraction has indicated the nearest Building Unit to a well is 2,319 feet. During my review I identified a Building Unit (a mobile/manufactured home on the Cactus Hill Ranch) approximately 1,950 feet to the northeast. This Building Unit is located at the intersection of Highway 257 and Weld County Road 80. Please review this area and let me know if you concur. If yes, please provide me with the distance from the nearest well to this Building Unit.

2) This Form 2A was submitted without a Multi-Well Plan. This is a required attachment for this location. Please send it to me and I will attach it to the Form 2A.

Please respond to this correspondence by August 10, 2018. If you have any questions, please contact me. Thank you.

**Subject:** COGCC Form 2A review of Extraction's VIC 20-E Pad location - Doc #401652454

Jeff,

I have reviewed the referenced Form 2A Oil & Gas Location Assessment and have the following comments.

1) In the Cultural Setback Distance section Extraction has indicated the nearest Building Unit to a well is 2,319 feet. During my review I identified a Building Unit (a mobile/manufactured home on the Cactus Hill Ranch) approximately 1,950 feet to the northeast. This Building

Unit is located at the intersection of Highway 257 and Weld County Road 80. Please review this area and let me know if you concur. If yes, please provide me with the distance from the nearest well to this Building Unit.

Nearest Well to Building Unit: 1988'

2) This Form 2A was submitted without a Multi-Well Plan. This is a required attachment for this location. Please send it to me and I will attach it to the Form 2A. Attached is the Multi-Well Plan. My apologies on not attaching.

Please respond to this correspondence by August 10, 2018. If you have any questions, please contact me. Thank you.

Jeff,

The Multi-Well Plan only shows 23 of the 25 proposed wells. The VIC 29W-20-1N & 29W-20-2N wells are not shown.
