Overall Interim Reclamation

Final Reclamation/ Abandoned Location:

Date Final Reclamation Started: _____ Date Final Reclamation Completed: _____

Final Land Use: _____

Reminder: _____

Comment: Project area is not reclaimed per 1004 reclamation rules. Aerial imagery and in-field observation indicates that location is not recontoured, de-compacted, gravel is present in portions of the working area. Vegetation assessment will not be conducted until site is properly decompacted and recontoured.

Well plugged _____ Pit mouse/rat holes, cellars backfilled _____

Comment: Approximate 200 Russian knapweeds and scattered musk thistle (approximately 25) were identified within the project area.

Corrective Action:

Date **11/01/2018**

Project area needs to be properly decompacted and recontoured, and revegetated. Pit area in southern project area needs to be closed and debris properly disposed of. Weeds need to be controlled. This work needs to be completed during the fall 2018 seeding window, and no later than November 1, 2018.

Overall Final Reclamation

Well Release on Active Location ☐Multi-Well Location ☐**Storm Water:**

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment: Erosion is occurring on the western cut-slope and diversion channels in the southwestern and southern project area. Proper recontouring and revegetation is needed in order to achieve long-term stability on this location.

Corrective Action: Stormwater controls are needed in the short term (August 9, 2018), to stabilize erosional channels in the southern and southwestern project area. Recontouring needs to repair the cut-slope scar, and long term stabilization will be met via successful vegetation establishment. A significantly reduced slope angle will be necessary to achieve vegetation establishment on the slope. Stormwater controls and monitoring are needed to ensure stabilization until the location passes final reclamation.

Date: 08/09/2018

Pits: ☐ NO SURFACE INDICATION OF PIT
