Affidavit of Publication

STATE OF COLORADO

ss.

County of Weld,

I Vickie Garretts

of said County of Weld, being duly sworn, say that I am an advertising clerk of

THE GREELEY TRIBUNE,

that the same is a daily newspaper of general circulation and printed and published in the City of Greeley, in said county and state; that the notice or advertisement, of which the annexed is a true copy, has been published in said daily newspaper for consecutive (days): that the notice was published in the regular and entire issue of every number of said newspaper during the period and time of publication of said notice, and in the newspaper proper and not in a supplement thereof; that the first publication of said notice was contained in the Eighteenth day of May A.D. 2018 and the last publication thereof: in the issue of said newspaper bearing the date of the Eighteenth day of May A.D. 2018 that said The Greeley Tribune has been published continuously and uninterruptedly during the period of at least six months next prior to the first issue thereof contained said notice or advertisement above referred to; that said newspaper has been admitted to the United States mails as second-class matter under the provisions of the Act of March 3, 1879, or any amendments thereof; and that said newspaper is a daily newspaper duly qualified for publishing legal notices and advertisements within the meaning of the laws of the State of Colorado.

**OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO**

**PUBLIC NOTICE
OF
PROPOSED UNDERGROUND INJECTION
CONTROL PERMIT**

PURPOSE OF PUBLIC NOTICE:

The purpose of this notice is to solicit public comment on the South Weld SWD #1 disposal well, a Class II injection permit submitted by NGL Water Solutions DJ LLC. The South Weld SWD #1 disposal well will be drilled at a location 1784 feet from north line and 1707 feet from east line of Section 30, Township 1 North, Range 66 West, 6th P.M., Weld County, Colorado.

BACKGROUND

Class II injection wells are permitted and regulated in such a manner as to prevent the contamination of underground sources of drinking water and to ensure fluid emplacement and confinement within the permitted injection zones. Class II injection wells are permitted to inject waste generated from oil and gas exploratory and production operations. NGL Water Solutions DJ LLC has proposed to inject these fluids into the (top down) Lyons, Lower Setanka, Wolfcamp, Amazon, Council Grove, Admire, Virgil, Missouri, and Fountain Formations in the South Weld SWD #1 well through an open hole completion at depths of approximately 9,202 to 11,193 feet.

Public comments are encouraged and will be accepted, in writing at the Commission for a period of thirty (30) days after publication of this notice. If any data, information, or arguments submitted during the public comment period appear to raise substantial questions concerning proposed injection well permit, the Director may request that the Commission hold a hearing on the matter.

Additional information on the operation of the proposed injection well may be obtained at the Commission office.
