Comment

This is the second corrective action for weeds on the location. Diffuse knapweeds are not controlled. If treatment occurred in 2017, it was not sufficient as infestation appears worse than at the time of the 2017 inspection. Approximately 1000 individuals observed.

Corrective Action

Treat weeds by November 1, 2018. Additionally submit as an attachment to a Form 4, a weed control plan to control the diffuse knapweed population within the project area. The plan should include all measures necessary to control the infestation, treatment timing, and application methods. Recommend meeting with county weed/extension specialist to advise on an effective plan. Weed control plan needs to be submitted by August 31, 2018.
