### CORRECTIVE ACTIONS:

1 CA# 117213

Corrective Action: Install sign to comply with Rule 210.e.

Date: 09/05/2018

Response: FACTUAL REVIEW REQUEST

Basis for Review: Findings are inappropriately tied to multiple wells

Operator Comment: The sign is legible and in compliance with Rule 210.e, as seen in the inspection photos. The tank placard could have been noted on the FIR, but did not need to be listed as a CA. Vanguard Operating will replace the tank placard, but we have seen several of these unwarranted CAs recently related to tank placards.

COGCC Decision: **Not Approved**

COGCC  
Representative:

COGCC Supervisor: Location 322510 is a single well pad. Review of database only shows one permitted well 045-06419. FIR Doc # 689301463 is correctly applied to the production tank battery serving the single well on the specified location.

2  CA# 117214

Corrective Action: Comply with Rule 603.f .

Date: 11/05/2018

Response: FACTUAL REVIEW REQUEST

Basis for Review: Equipment belongs to the surface owner

Operator Comment: This derelict RV has been discussed multiple times in relation to COGCC inspections. Please see the attached email response from former COGCC Director Matt Lepore regarding the RV. Vanguard requests that the COGCC file the attached correspondence in the inspection record, so that this topic resurface in future inspections.

COGCC Decision: **Not Approved**

COGCC  
Representative:

COGCC Supervisor: Stored RV on Location 322510 is partially on the permitted pad surface. Stored RV is close enough to cause a safety and fire hazard to production equipment on location. Stored RV is positioned in a manner that is causing stormwater, and reclamation issues. Debris from the stored RV are lying on the pad surface.
