COGCC INSPECTION SUMMARY:

FIR Document Number: 691300424

Inspection Date: 07/31/2018

FIR Submit Date: 08/08/2018

FIR Status: _____

Inspected Operator Information:

Company Name: EXTRACTION OIL & GAS INC Company Number: 10459

Address: 370 17TH STREET SUITE 5300

City: DENVER State: CO Zip: 80202

LOCATION - Location ID: 455340

Location Name: Rinn Valley West Number: _____ County: _____

Qtrqtr: SESE Sec: 18 Twp: 2N Range: 68W Meridian: 6

Latitude: 40.132044 Longitude: -105.040277

FACILITY - API Number: 05-123-00 Facility ID: 455340

Facility Name: Rinn Valley West Number: _____

Qtrqtr: SESE Sec: 18 Twp: 2N Range: 68W Meridian: 6

Latitude: 40.132044 Longitude: -105.040277

CORRECTIVE ACTIONS:

1 CA# 117844

Corrective Action: Comply with Rule 802. For low frequency issues, obtain a low frequency impact analysis and identify control measures.

Date: 08/11/2018

Response: CA COMPLETED

Date of Completion: 05/30/2018

Extraction had Principal perform a sound Impact Assessment on May 30, 2018 and identified that C-Scale sound

Operator Comment: levels at the house in the complaint would be 68.2dbC with a traditional drilling rig. Extraction took the action to bring in it's quietist drilling (Patterson 901), which was built to operate in sensitive areas, as a control measure, as this rig is much quitter.

Extraction will be putting hay bales up along the North West corner as a measure of good faith to control C-scale noise. However, Extraction would like it noted that, although the Leq was 67db, night time trends on the states own sound survey show the noise to be less than 65 at night time hours. As part of an assessment with the town of Frederick, 30 aggregate trucks in a 30 minute period drove along CR 20 1/2, which is where the house in question sits. This drives up the C-scale noise during the day, as the states survey shows, skewing the C-scale average high. The inspection fails to isolate the drilling as a sound source.
