Weld County, Colorado

Dear Laurie:

Noble Energy Inc. ("Noble") plans to drill the Guttersen Y05-779 Horizontal Well (the "Well"), with a wellbore lateral as depicted on the enclosed plat.

Our records indicate that Crestone Peak Resources Operating, LLC operates the following well(s) which are located within 150' from our proposed horizontal wellbore lateral:

Norris 'A' Unit 2 (05-123-17955) – located 120 feet from the proposed subject well

Colorado Oil and Gas Conservation Commission ("COGCC") Rule 317(s) provides that no portion of a proposed wellbore's treated interval shall be located less than one hundred fifty (150') feet from any existing or permitted oil or gas wellbore, but this requirement may be waived in writing by the operator of the encroached upon well.

Noble respectfully requests that Crestone Peak Resources Operating, LLC waive this requirement and allow Noble to drill the Well as proposed. Accordingly, by executing this letter, Crestone Peak Resources Operating, LLC waives COGCC Rule 317(s) and grants its consent to allow Noble to drill the Well within the 150' minimum intra-well distance provided for in said rule. If you have any questions or need any additional information, please call me at (303) 228-4261.

Very truly yours,

NOBLE ENERGY, INC.
