1003 f. Weeds Noxious weeds? \_\_\_\_\_

Comment Majority of Vegetation within Interim Reclamation Area is Russian thistle, Kochia, Marsh elder & Poverty sumpweed that are not acceptable Vegetative cover. Dense canopy and competitive proclivities of these species have severely limited establishment of desirable perennial species. Noxious weeds, Russian knapweed, Bull thistle & Bindweed were also noted on location.

Corrective Action **There are two CAs in this Section.**  
**CA#1) Control Noxious weeds & weeds that are preventing establishment of desirable species in Interim Rec area by 10/1/18; consulting Garfield County Vegetation Manager for most effective controls & timing of applications. Extended CA date for Operator is shortened as timing is of utmost importance in application of weed controls.**  
**CA#2) Vegetate currently weed dominated and sparsely vegetated areas of Location with desirable species to reach 80% of Reference area requirement. Reclamation activities should be complete by November 30,2018.**
