RE: Rule 318A.c. Surface Locations  
Maan

Township 11 North, Range 66 West, 6th P.M.  
Section 33: SE4  
Weld County, Colorado

Dear Mrs. Maan:

The Colorado Oil and Gas Conservation Commission Rule 318A.c.(2) states that, "when an operator is requesting a surface well location greater than fifty feet (50') from a well (unless safety or mechanical considerations of the well to be twinned or topographical or surface constraints justify a location greater than fifty feet (50')), the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively."

Pursuant to Rule 318A.c.(2), Great Western will locate the wells on the agreed upon location as depicted in the Surface Use Agreement.

Please waive this requirement showing your approval of the new wells being drilled on the agreed location referenced above.

Respectfully,

*Jeff Farquhar*
