Dear Mr. Snyder:

TEP Rocky Mountain LLC (TEP) is proposing to drill twenty-eight (28) new wells on the existing DOE 1-M-18 pad located on the BLM tract adjacent to your property. TEP respectfully requests to utilize a new cuttings trench on the existing RWF 44-18 pad for the extra drill cuttings from the DOE 1-M-18 location (Cuttings Trench). To expedite the completion process of those wells, TEP respectfully requests to utilize the existing RMV 143-18 as a frac pad (Frac Pad) for the DOE 1-M-18 wells. The attached Exhibit "A" depicts the location of the Frac Pad and Cuttings Trench. Once TEP is finished utilizing the Frac Pad and Cuttings Trench, TEP shall promptly reclaim the Frac Pad and Cuttings Trench and utilize a seed mix approved by you.

If you have any questions or concerns, please contact Bryan Hotard at (970) 263-2754 (office) or (970) 361-2006 (cell).
