Comment:

	<p>No oil and gas equipment was observed at the battery or well location; however, the battery location was not returned back to crop production. Appears the surface owner is now using the battery location for storing farming equipment but there is no final reclamation variance request in the well file.</p> <p>Well location appears reflective of reference crop areas and appears to meet Rule 1004 standards.</p>	
Corrective Action:	Operator shall perform final reclamation activities at the battery location per Rule 1004 or submit a 502.b. Surface Owner Variance request per Rule 1001.c. by October 16, 2018.	Date <b>10/16/2018</b>

Please note that until a variance request has been submitted, the corrective action and date remain applicable. Until an official request has been submitted, COGCC will continue with business as usual, including follow-up inspections. Also, be aware that a submission for a variance request does not guarantee approval; corrective action and date would remain applicable until resolved if request is denied.	binschusc	09/04/2018
