**Good Housekeeping:**

Type	WEEDS		
Comment:	Vegetation has established around wells.		
Corrective Action:	Comply with Rule 603.f and remove vegetation around production equipment.		Date: 09/10/2018
Type	WEEDS		
Comment:	Canada thistle observed on the northeast end of the location and are beginning to bloom. See attached photo document. This is a Colorado state listed noxious weed and needs to be managed.		
Corrective Action:	Comply with 1003.f and perform weed management.		Date: 09/10/2018

Overall Final Reclamation	Well Release on Active Location	Multi-Well Location
---------------------------	---------------------------------	---------------------

**COGCC Comments**

Comment	User	Date
<p><b>RECLAMATION COMMENT:</b></p> <p>This location does not meet reclamation requirements. There are areas around the producing wells that do not appear to be reasonably needed for production activities. The latest date of first production for the active wells is 4/2015 (123-39260, 5A #400765839). Interim reclamation on areas not reasonably needed for production should have been conducted by 4/2016 in accordance to 1003.b</p> <p>After additional review, operator submitted amended 2A #401277131 on 6/09/2017 and added three additional wells to the location.</p> <p>It is noted that operator states within the 2A that construction activities were planned to commence on 11/15/2017 with interim reclamation planned 5/1/2018. Construction or drilling operations have not been conducted for the additional wells.</p>	trujilloam	08/31/2018
