Weld County, Colorado

Dear Director Murphy:

Crestone Peak Resources Operating LLC (Crestone) proposes to drill ten (10) horizontal wells on the above referenced pad.

COGCC Rule 318A.c requires a new surface location to be less than 50' from an existing surface well location. The above referenced wells are proposed at a surface location approximately 443'-474' NW of the nearest oil and gas well, Echeverria 11-2 (API# 05-123-19854).

These wells were located more than 50' from the existing well due to a negotiated SUA with the surface owner. Crestone has obtained written permission from the surface owner by way of signed waiver.

Crestone respectfully requests the COGCC approve the exception location request and Application for Permit to Drill for the wells on the subject pad. Many thanks for your consideration of this matter.

Respectfully,

Erin Lind
Regulatory Analyst
