

STATE OF COLORADO

SS.

County of Weld,

I Kelly Ash

of said County of Weld, being duly sworn, say
that I am an advertising clerk of

THE GREELEY TRIBUNE,

that the same is a daily newspaper of general circulation and printed and published in the City of Greeley, in said county and state; that the notice or advertisement, of which the annexed is a true copy, has been published in said daily newspaper for consecutive (days): that the notice was published in the regular and entire issue of every number of said newspaper during the period and time of publication of said notice, and in the newspaper proper and not in a supplement thereof; that the first publication of said notice was contained in the Thirteenth day of May A.D. 2017 and the last publication thereof: in the issue of said newspaper bearing the date of the

Thirteenth day of May A.D. 2017 that said The Greeley Tribune has been published continuously and uninterruptedly during the period of at least six months next prior to the first issue thereof contained said notice or advertisement above referred to; that said newspaper has been admitted to the United States mails as second-class matter under the provisions of the Act of March 3, 1879, or any amendments thereof; and that said newspaper is a daily newspaper duly qualified for publishing legal notices and advertisements within the meaning of the laws of the State of Colorado.

My Commission Expires 02/06/2021

**OIL AND GAS CONSERVATION
COMMISSION
OF THE STATE OF COLORADO**
**PUBLIC NOTICE
OF
PROPOSED UNDERGROUND INJECTION
CONTROL PERMIT**

PURPOSE OF PUBLIC NOTICE:

The purpose of this notice is to solicit public comment on the NGL #C5B disposal well, a Class II injection permit submitted by NGL Water Solutions DJ LLC. The NGL #C5B disposal well will be drilled at a location 1873 feet from south line and 2489 feet from west line of NESW Section 29, Township 2 North, Range 64 West, 8th P.M., Weld County, Colorado.

BACKGROUND

Class II injection wells are permitted and regulated in such a manner as to prevent the contamination of underground sources of drinking water and to ensure fluid emplacement and confinement within the permitted injection zones. Class II injection wells are permitted to inject waste generated from oil and gas exploratory and production operations. NGL Water Solutions DJ LLC has proposed to inject these fluids into the (top down) Lyons, Lower Satanka, Wolfcamp, Amazon, Council Grove, Admire, Virgil, Missouri, Fountain, Des Moines, and Atoka Formations in the NGL #C5B well through an open hole completion at depths of approximately 9,280 to 11,155 feet.

Public comments are encouraged and will be accepted, in writing at the Commission for a period of thirty (30) days after publication of this notice. If any data, information, or arguments submitted during the public comment period appear to raise substantial questions concerning proposed injection well permit, the Director may request that the Commission hold a hearing on the matter.

Additional information on the operation of the proposed injection well may be obtained at the Commission office.
