Dear Director:

Please let this letter serve as a request for administrative approval of exception locations for the captioned oil and gas well(s).

Rule 318A.a requires surface locations within a square with sides four hundred (400) feet in length, the center of which is the center of any governmental quarter-quarter section ("400' window"); or within a square with sides eight hundred (800) feet in length, the center of which is the center of any governmental quarter section ("800' window").

Crestone Peak Resources proposes to drill the above referenced wells at a surface location outside a legal drilling window (by approx. 168') as defined by Rule 318A.a. This is an agreed upon location due to a negotiated SUA with the surface owner. The surface owner has granted a waiver in the SUA, in paragraph 10, section F on page 8, which is attached to each APD.

Thank you for your assistance in this matter. If you have any questions or comments, please contact me at 720-410-8487.

Sincerely,

Meghan Campbell  
Regulatory Analyst
