COLORADO OIL AND GAS CONSERVATION COMMISSION  
SUNDRY NOTICES AND REPORTS OF WELLS

(Indicate nature of data by checking below)

Notice of intention to drill \_\_\_\_\_  
 Notice of intention to change plans \_\_\_\_\_  
 Notice of date for test of water shut-off \_\_\_\_\_  
 Report on result of test of water shut-off \_\_\_\_\_  
 Notice of intention to re-drill or repair well \_\_\_\_\_  
 Notice of intention to clean out well \_\_\_\_\_  
 Statement of shooting \_\_\_\_\_  
 Statement of perforating \_\_\_\_\_  
 Notice to pull or otherwise alter casing \_\_\_\_\_  
 Notice of intention to abandon well \_\_\_\_\_ X  
 Report of work done on well since previous report \_\_\_\_\_

Following is a (notice of intention to do work) July 2 1953  
 (~~report of work done~~) (~~On-land~~) (patented) described as follows:

Colorado Logan Dale  
 State County Field

2A J. Knifton 'A' NW/4 23 8N 53W  
 (Well No.) (Lease) (Sec. and  $\frac{1}{4}$  Sec.) (Twp.) (Range) (Meridian)

The well is located 950 ft. (N) of N. Line and 987 ft. (E) of \_\_\_\_\_  
 (S) (W)  
West Line of NW/4 Section 23-T8N-R53W.

The elevation above sea level is 4074 ft.

Details of Plan of Work: (State names of and expected depths to objective sands:  
 Show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement-  
 ing points, and all other important proposed work.)

The captioned well was temporarily abandoned 10-18-52, and as commercial  
 production was not obtained, we propose to abandon it, by first removing the 5 $\frac{1}{2}$ "  
 casing, which was set at 4776 feet. We anticipate recovering approximately 3600 feet.  
 Then a cement plug will be spotted from 4782 feet (Total Depth) to 4651 feet (opposite  
 the 'Muddy' and Dakota sandstone). Heavy mud will then be placed from 4651 feet to  
 622 feet (15 feet below bottom of surface pipe). A cement plug will be set from 622  
 feet to 592 feet, heavy mud from there to 15 feet, with a 15 foot cement plug being  
 spotted to the surface in such a manner as not to interfere with cultivation\*.
