17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting and proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Spud on 5-31-76. Drilled 37 ft. surface hole and set 36 Ft. of 30 inch conductor pipe and cemented to surface. Drilled to 51 ft. and lost all returns, attempted to cement off lost circulation zone with 300 sx. common cement and failed. Began to drill without return. Reached 152 ft. and ground under and around rig began to sink badly. Plan to move rig approx. 350 ft. south and drill new hole. Will fill in old reserve pits level and clean up old pad. Will survey new location and run elevation.
