Complaint			
Comment:	<p>Inspection in response to complaint. 18#200446297</p> <p>Field Inspector Assigned: Adam Kraich</p> <p>Complaint Received:</p> <p>Date: 9-24-18</p> <p>Complaint Contacted: Date: 9-25-2018 @9:11</p> <p>Location #: 450069</p> <p>Inspection Document #: 691300535</p> <p>Nature of complaint: Noise (C-scale)</p> <p>Field Inspector Actions:</p> <p>On 9-24-2018, I received a complaint in regard to C-scale (low frequency) noise, suspected to be coming from the Homestead pad, owned and operated by Verdad Resources LLC.</p> <p>On 9-25-2018, I made initial contact with the complainant, who stated they had originally spoke to a representative from Great Western Oil & Gas, as the complainant had originally thought that GWOC was the operator of the suspect location. Per the complainant, the representative from GWOC had contacted the true operator, Verdad Resources and informed them of the complaint related to their production location. Also per the complainant, the location had not made the inflammatory noise since contact was made by GWOC to Verdad Resources. The complainant confirmed this through the length of the sound study performed by COGCC field staff.</p> <p>On 9-25-2018 @ 9:25am, I placed a continuous sound monitor at the complainant's residence in accordance with COGCC rules. I pulled the sound meter on 9-28-2018 @ 9:03am. A review of the sound audit shows an average C-scale db of 59.7, NOT adjusted for wind or weather conditions.</p> <p>No violation of COGCC rules were observed at the time of the inspection.</p> <p>All information reviewed and site inspection information were submitted to the complaint specialist for further review.</p>
