☐ Tank Bottoms

☐ Condensate

☐ Pigging Waste

☐ Drilling Fluids

☐ Drill Cuttings

☐ Spent Filters

☐ Pit Bottoms

☐ Other (as described by EPA)

### DESCRIPTION OF IMPACT

Impacted?	Impacted Media	Extent of Impact	How Determined
UNDETERMINED	SOILS	tbd	sampling

### INITIAL ACTION SUMMARY

Description of initial action or emergency response measures take to abate, investigate, and/or remediate impacts associated with E&P Waste.

The partially buried produced water vaults at these tank batteries will be removed.

### PROPOSED SAMPLING PLAN

#### Proposed Soil Sampling

☒ Will soil samples be collected as part of this investigation? ( Number, type (grab/composite), analyses, and locations of samples ):

Each tank battery has 1 partially buried produced water vault. Each pit will have grab soil samples collected from the 4 cardinal directions 2.5' below the ground surface on the side walls, as well as from the pit bottom. The sidewall samples will be field screened in a 1-gallon clear plastic ziplock bag with a PID and the highest reading of the 4 will be sent to the lab for analysis, along with the pit bottom grab sample. Soil samples will be sent to Origins Laboratory in Denver for DRO/GRO/BTEX (sidewall and pit bottom) and EC/pH/SAR (sidewall only) analyses.

#### Proposed Groundwater Sampling

☒ Will groundwater samples be collected as part of this investigation? ( Number, analyses, and locations of samples ):

It is not anticipated that the bottom of the open pits left behind by the removal of the partially buried produced water vaults will interact with groundwater. However, if it is found that is the case at any pit, a groundwater grab sample will be collected and submitted to Origins Laboratory for BTEX analysis.

#### Proposed Surface Water Sampling

☐ Will surface water samples be collected as part of this investigation? ( Number, analyses, and locations of samples ):

**OPERATOR COMMENT**

This Initial Form 27 is for the removal and site investigation of 2 partially buried produced water vaults at the 2 listed tank battery locations. The vaults have all not yet been removed and the 2 pits that will be left behind will have the previously mentioned soil samples collected once they are removed. We hope to have this done within the next month or two, as our contractor's schedules allows.

I hereby certify all statements made in this form are to the best of my knowledge true, correct, and complete.
