Gentlemen:

This is written with reference to the intention to drill the No. 1-33 Sulphur Creek well in the SE SW of Section 33, T-2S, R-98W.

You have indicated that the well is to be located in the center of the SE $\frac{1}{4}$ SW $\frac{1}{4}$, yet the footage shown is 330 feet from the south and 2310 feet from the west section lines. The center of the SE $\frac{1}{4}$ SW $\frac{1}{4}$ would place the location 660 feet from the south and 1980 feet from the west lines.

The location is required to be at least 600 feet from lease lines or property lines, except in cases of extreme terrain, or a waiver is obtained to drill closer.

Please correct the form before re-filing.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION

D. V. Rogers, Deputy Director
