VEGETATIVE COVER \_\_\_\_\_

Comment:

Operator submitted a FIRR document stating "Vegetation growth has been met per 1004 standards and have been reclaimed. Please see attached photos." The attached photo did not illustrate uniform vegetative growth that appeared to be reflective of reference area levels; therefore, Staff did not approve the FIRR.

At the time of thi inspection, there were areas of the disturbance area that were not reflective of reference area levels. It is the responsibility of the Operator to comply with Rule 1004 throughout all areas associated with the Location. Location is will remain IN-PROCESS. Operator may be required to perform additional reclamation activities if vegetative standards are not met. Refer to the attached inspection photos.
