**Comments:**

The Blomstrom 1-8 was spudded on August 18, 1995, was determined to be dry. It was abandoned and plugged on September 15, 1995. As of March 22, 2018, the location is and has been native grass pasture used for grazing livestock. The reclamation appears successful and no further remediation is needed. Please see the pictures. Several attempts to obtain a signed surface agreement with the surface owners have failed.
