Flowline

#1	Type: Non-Well Site	1 of Lines
----	---------------------	------------

Flowline Description

Flowline Type: Non-Well Site Size: 3" Material: Poly
 Variance: No Age: New Contents: Multiphase

Integrity Summary

Failures: Spills: No Repairs Made:
 Coatings: H2S: No Cathodic Protection:

Pressure Testing

Witnessed: Test Result: Charted:

COGCC Rules (check all that apply)

☒ 1101. Installation and Reclamation ☐ 1102. Operations, Maintenance, and Repair ☐ 1103. Abandonment

Comment: The off location flowline is being re-routed between the wellhead and KPK State Lease flowline header (manifold) as part of an agreement between the operator and land developer (w/ Silverstone Subdivision). The existing flowline (3" fiberglass) is being completely removed by KPK field personnel (existing ROW being released); Contract personnel (TRSSI) are installing a new 3" Poly (continuous roll/ coiled HDPE SDR 11) flowline (3 phase) in a new ROW that runs approximately 200' west from the wellhead; turns north for approximately 1300'; then turns west again for approximately 1100' to the tie in at the State header. The new flowline will run through steel pipe casing(s) at road crossings; tracer wire is being installed; Connections are being poly fusion (butt) welded. The flowline is scheduled to be pressure tested prior to being put into service.

Corrective Action: Date:

COGCC Comments

Note: Operator must comply with COGCC series 1100 flowline Regulations.	maclarej	10/05/2018
1101. REGISTRATION REQUIREMENTS 1101.a. Off-Location Flowline Registration. (1) An operator must register an off-location flowline constructed on or after May 1, 2018, by submitting a Flowline Report, Form 44, to the Director within 30 days after the flowline is placed into service. (3) Within 30 days of modifying the alignment of a registered off-location flowline, the operator must report the change to the Director by submitting a Flowline Report, Form 44.
