Weld County, Colorado

Dear Director Murphy:

Crestone Peak Resources Operating LLC (CPR) proposes to drill fourteen (14) horizontal wells on the above referenced pad.

COGCC Rule 318A.c requires a new surface location to be less than 50' from an existing surface well location. The above referenced wells are proposed at a surface location approximately 222' West of the nearest oil and gas well (Kugel 42-18 API# 05-123-20307).

CPR respectfully requests the COGCC approve the exception location request and Applications for Permit to Drill for the wells on the subject pad. Many thanks for your consideration of this matter.

Respectfully,

Erin Lind
Regulatory Analyst
