Subject: PCU T27-18G COGCC inspection form 42
Date: 01/04/2013 08:51 AM

Hi Dee,

We have completed the following action items for the COGCC inspection on the PCU T27-18G, the remaining action item cannot be addressed now due to winter conditions and will be one of the issues discussed in the email to Kris, COGCC inspector. I will send the draft email shortly.

Actions items corrected:

Sign was corrected

Underground tank is signed not in use and is disconnected, no berm installation needed per 12/19/2012 conversation with Kris. Please note in form 42 if possible.

Action item we cannot currently address due to winter conditions:

Markers on guy line anchors corrective action date will be addressed in email to follow.

Can you please submit the form 42. Thanks for your help!

Jes
