Comment:

Does not appear Final reclamation activities were performed per Rule 1004 and weedy, annual vegetation (Russian thistle and Kochia) has not been managed and controlled.

Operator did indicate a Final Reclamation variance was in process for a land use change (gravel mining); however, COGCC Staff will not consider a variance until the Operator controls and manages weeds.

Note: The corrective date is not intended to be the date for which the Operator shall comply with applicable COGCC rules, but rather, it is the date the location was observed out of compliance.

Corrective Action: **Comply with Rules 1001.c and 1004 (weed management).**
