General Comment:

COGCC Environmental inspection of stockpiles located on well pad. Wells spud in March 2015. Stockpiles of various materials located on pad (in SW corner, SE corner, and NE corner) are discussed below by type of material. See photos.

CUTTINGS STOCKPILES remaining in SW corner and SE corners of pad lack adequate stormwater control BMPs. Evidence of stormwater runoff with sediment transport from stockpiles observed on inspection date.

SPECIAL WASTE STOCKPILE containing hydrocarbon-impacted material located at eastern terminus of cuttings stockpile (in SE corner of pad) had earthen berms constructed from cuttings on N, W, and S sides of stockpile. East side of stockpile had been left open for equipment access. Additional hydrocarbon-impacted SPECIAL WASTE was located inside of metal container at NE corner of pad. On inspection date, hydrocarbon-impacted material was observed outside of metal container on north side and operator was instructed to remove impacted material outside of containment. Operator informed COGCC on 10/2/2018 that the Special Waste Stockpiles contained tank bottoms awaiting disposal.

ADDITIONAL SPECIAL WASTE STOCKPILE located in NE corner of pad contained soil, boulders, rocks, sawdust, wood/concrete debris, trash, white storage containers on pallets, and some cuttings. This stockpile also lacked stormwater control BMPs.

LocationOverall Good: ☐

Emergency Contact Number:

Comment:

Corrective Action:

Date: _____

Good Housekeeping:

Type	UNUSED EQUIPMENT		
Comment:	Unused equipment (junk pipe and wire) stored on north side of SW cuttings stockpile. See photos.		
Corrective Action:	Comply with Rule 603.f. (unused equipment)	Date:	11/15/2018
Type	DEBRIS		
Comment:	Additional Special Waste Stockpile described previously contains soil, boulders, rocks, sawdust, wood/concrete debris, trash, white storage containers on pallets, and soil cuttings.		
Corrective Action:	Comply with Rule 603.f. (trash and debris)	Date:	10/26/2018

Overall Good: ☐**Spills:**

Type	Area	Volume		
Other	Truck Loadout	<= 1 bbl		
Comment:	Localized accumulations of oil-stained soil (including tank bottoms) observed on surface of pad between soil stockpiles, outside of secondary containment. See photos.			
Corrective Action:	Remove and properly dispose of oily waste, per Rule 907.e. (stained soil)			Date: 11/15/2018

In Containment: No
