**Photo 1. View of the project area from the northeastern corner facing center.**

Photo 2. View of the western project area from the northwestern corner facing southward. Vegetation is becoming established with grasses such as western wheatgrass (*Pascopyrum smithii*), smooth brome (*Bromus inermis*), and sand dropseed (*Sporobolus cryptandrus*).

**Photo 3. View of the northern project area from the northeastern corner facing westward. Stormwater diversion is recently graded.**

**Photo 4. View of the southwestern project area from the southwestern corner facing northward. Berm and lower project area was recently graded and seeded.**

**Photo 5. View of cobble run-down and silt trap within the eastern project area.**

**Photo 6. Closeup view of seed apparent on disturbed soil surface.**
