

LARAMIE ENERGY, LLC

OXY Mesa WS Pond 13E (414403) and OXY Mesa WS Pond 13W (414404)

POND HISTORY

- 11/13/2009: Operator: OXY USA WTP, LP
Pond 13E and 13W approved through Form 15 process for produced water storage.
- 3/24/2014: Operator: OXY USA WTP, LP
Form 28 Application for Centralized E&P Water Management Facility
- 2/23/2015: Operator: OXY USA WTP, LP
Form 27 Remediation Plan (REM 8927 and REM 8927) approved
- 7/2015: Operator: OXY USA WTP, LP
Last recorded discharge of produced water to Pond 13 E/W
- 12/01/2015: Operator: OXY USA WTP, LP
Form 28 Approval for Centralized E&P Water Management Facility
- 3/01/2016: Operator Change: OXY USA WTP LP to LARAMIE ENERGY, LLC
- 3/01/2016: Operator: LARAMIE ENERGY, LLC
Proceeds to commence removing produced water from Pond 13E and 13W and hauling to disposal in CC 604-1 SWD well to allow solids in Ponds 13E/W to dry in preparation of removing and hauling to disposal.
- 7/24/2017- 10/013017: Operator: LARAMIE ENERGY, LLC
Commenced and proceeded to remove liner and solids from pond and haul to disposal. See "Closure Report" for chronological history.
- 8/2018: Operator: LARAMIE ENERGY, LLC
Determines converting Pond 13E and 13W to Centralized E&P Water Management Facility is not cost beneficial and abandons the project. However, due to the lack of freshwater storage in the Cascade Creek Area, Laramie proposed to convert the ponds to single lined freshwater storage for future drilling operations.
- 9/27/2018: Operator: LARAMIE ENERGY, LLC
Form 15 filed for lined freshwater storage only for Ponds 13E(414403) and Pond 13W (414404)

****Certification:** Laramie certifies since 3/01/2016, Ponds 13E and 13W were not constructed nor used as E&P Water Management Facilities as permitted through the Form 28 Application and Approval process.
