1	We would like to comment on our concerns for emergency response services in relation to the SWAN project.	08/28/2018
2	<p>Once again Watkins Farm residents are being pinned in by oil wells due to the greed of Conoco Phillips and "our" elected officials who have sworn to protect us. The risk of fire and lack of access serves has a huge risk for the residents of Watkins Farm who are calling this</p> <p>development "HOME". How would you like to be sandwiched in by dangerous and unsafe oil wells that risk your safety and enjoyment of your home? Arapaho county has informed us that another person's right ends when it encroaches on the enjoyment of another's property. Is this not what is being done to the residents of Watkins Farm? I'm ashamed of those that were sworn to protect and act in our behalf, but then vote to allow this travesty to continue. There are plenty of other sites for this drilling, but not next to neighborhoods, homes and children. PLEASE STOP this from occurring and stand up to the oath that you have all sworn to uphold. Your mother would be proud of you, and she's not on a pension from Conoco-Phillips. If Conoco is so great to work for, why have they threatened their employees that they will lose their jobs if these wells if moved a mere distance away?????</p> <p>Thank you for your consideration.</p>	08/31/2018
