

# Inspection Photos

Operator: BP Production

API: 05-067-05115

Date: 10/05/2018

**Photo 1. View of the project area from the western edge facing northeastward toward the 067-07838 well.**

**Photo 2. View of vegetation within the central portion of the project area from the western edge facing eastward. Revegetation is comprised of grasses such as intermediate wheatgrass (*Thinopyron intermedium*) and smooth brome (*Bromus inermis*).**

**Photo 3. View of the project area from the western edge facing southeast toward 067-05115 well. Stormwater controls appear to be recently installed and are largely functioning at this time.**

**Photo 4. View of what appears to be rig cable and black well pad liner material in the western project area, outside of the fenced working area.**

**Photo 5. View of the northern portion of the project area from the northeastern corner facing westward.**
