Dear Anadarko E&P Onshore LP:

Kerr-McGee Oil and Gas Onshore LP (“KMG”) plans to drill the listed oil and gas wells from the above described surface locations.

Rule 318A of the Colorado Oil and Gas Commission’s Rules and Regulations requires the well be drilled in a square with sides four hundred (400) feet in length, the center of which is the center of any quarter/quarter, or a square with sides eight hundred (800) feet in length, the center of which is the center of any quarter. Rule 318A of the Colorado Oil and Gas Commission’s Rules and Regulations also requires any new twinned well be located 50’ or less from an existing oil and gas well. KMG will drill the wells at the above described location, but we will need this waiver as this location is more than 50’ from the existing well and falls outside the legal drilling window. KMG reserves the right to change any of the well names listed above at its discretion without further notice.

Please waive both of the above referenced requirements showing your approval by signing below. Should you have any questions, please contact our office. Thank you for your consideration.

Very truly yours,  
KERR-MCGEE OIL & GAS ONSHORE LP

Anthony T. Rader  
Landman

Anadarko E&P Onshore LP waives the above requirements and approves the above described location.
