**Photo 1. View of the project area from the northwestern corner facing center.**

**Photo 2. View of the northern project area from the northwestern corner facing eastward. Revegetation is progressing with grasses and shrubs such as western wheatgrass (*Pascopyrum smithii*), Indian ricegrass (*Achnatherum hymenoides*), wild tarragon (*Artemisia dracunculus*), and rubber rabbitbrush (*Chrysothamnus nauseosus*).**

**Photo 3. View of the western project area from the northwestern corner facing southward.**

**Photo 4. View of what appears to be former pit area in northeastern project area.**

**Photo 5. View of area in northeastern project area where erosional channel is forming. Approximately 3 feet wide and deep.**

Photo 6. Annual jointed goatgrass (*Aegilops cylindrica*) from spring growing season, growing amongst perennial grasses within the western project area.
